----	------------------	---

1. Wharfage fees

Wharfage fees are calculated on the basis of the vessel's gross tonnage according to the International Convention on Tonnage Measurement of Ships, adopted 23 June 1969. The Port's service department establishes the tonnage for vessels that have not been measured.

Group (gt)	Increase	NOK pr. (gt)	NOK accumulated
0 – 300	300	NOK 0,32023	NOK 96,07
301- 600	300	NOK 0,29957	NOK 185,94
601 - 1 200	600	NOK 0,26858	NOK 347,08
1 201 - 2 000	800	NOK 0,25825	NOK 553,68
2 001 - 3 000	1 000	NOK 0,22726	NOK 780,94
3 001 - 5 000	2 000	NOK 0,20660	NOK 1 194,14
5 001 - 10 000	5 000	NOK 0,19627	NOK 2 175,49
10 001 - 20 000	10 000	NOK 0,18594	NOK 4 034,89
20 001 - 30 000	10 000	NOK 0,17561	NOK 5 790,99
30 001+		NOK 0,16528	

The wharfage fee is the vessel's payment for the use of public quays and is levied for each whole or part 24-hour lay-time period. The lay time is calculated from when the vessel ties up to when it casts off. A period of six (6) hours of a whole day is calculated as one half of a whole day. The minimum chargeable wharfage fee is nonetheless NOK 300,- and/or at least one whole day (24 hours).

For vessels that by order of the Port Inspectorate must cast loose from the quay to provide space for another vessel and then tie up again, the lay time is calculated as if the vessel had been tied up at the quay for the whole period.

Calls by special vessel in Kristiansand municipality's sea area are to be agreed upon in advance. Price on application.

2. Goods fees

The basis of calculation is the weight of the goods in metric tons. Large-volume goods are converted to weight units where one (1) m³ is no less than 0,5 metric tons.

Goods fees are the vessel's payment for the use of public quays and areas and are levied for goods shipped by vessels to or from the Port and for goods shipped through public quays. Goods fees are also levied on goods transferred from one vessel to another without passing through the quay if one of the vessels is at the quayside. In this case, the fee is levied at fifty (50) per cent of the rate levied for goods passing through the quay.

Goods fees cover storage of goods at Port of Kristiansand's quays and areas for a maximum of 48 hours after discharging the vessel and for a maximum of 48 hours before commencing loading the vessel. The port may grant a longer storage period for

larger cargos if storage areas permit. Separate regulations and fees apply to special terminals such as the container terminal and the ferry terminal.

Goods fees for incoming goods are the responsibility of the recipient of the goods. Goods fees for outgoing goods are the responsibility of the sender of the goods. Goods in transit between foreign locations are charged goods fees according to tariffs below.
